SEASON 1910-1911

AUGUST 1910

Fancher Creek Nurseries

INCORPORATED

GEO. C. ROEDING, President and Manager

Fresno, California

A WORD TO FRIENDS AND PATRONS

In presenting to our patrons our advance price list for the season 1910-1911, we wish to thank them for past favors, and solicit a continuance of same. We shall endeavor to maintain our reputation for fair dealing, and to give our very best attention to all orders entrusted to us, so that the stock we send out shall reach our patrons in good condition and be satisfactory. Our facilities for shipping are as perfect as possible, and with our improved methods we are enabled to pack and forward orders at short notice.

Our main office is located at 1225 J street.

Our stock of trees for this season is exceptionally fine, both in fruit and ornamental departments; and we are confident that we can please all those who place their orders with us. We invite correspondence. Our services are always at the disposal of our patrons should they desire any advice on anything pertaining to our line of work.

GUARANTEE OF GENUINENESS

Our trees are all budded or grafted as far as possible from bearing trees, and every care and precaution is exercised to have them true to name; still with all our caution mistakes are liable to be made, but we hold ourselves in readiness, on proper proof, to replace all trees and other stock that may prove untrue to label, free of charge, or refund the amount paid. It is mutually understood and agreed to between purchaser and ourselves, however, that our guarantee of genuineness shall, in no case, make us liable for any greater sum than that originally paid us for said trees, etc., that prove untrue.

FREIGHT CLASSIFICATION

It may not be generally understood that the method of packing a shipment of trees or plants is the basis on which freight charges are made. Nursery stock in bales or boxes completely covered with tulle or burlap take the first-class rate, while in cases completely boxed the third-class rate applies. When trees are shipped without packing, the classification requires the payment of the double first-class rate.

In carload lots with a minimum of ten tons, class C applies, and this is as a rule from 50 to 75 per cent less than the first-class rate.

For local shipments in California, trees are either packed in bales, wrapped with tulle, or in boxes, tops protected with burlap, for the difference between the first and third class rates is so slight that nothing would be gained by boxing, for the increased cost would more than offset the saving in freight charges.

To distant points in Texas, Mexico, Colorado and to other States and countries outside of California, when stock is to be a long time in transit, it is packed in paper lined cases, not only with a view of having the trees carry better, but also because of the saving in freight charges, the difference in classification being in many cases \$1.00 per 100 pounds.

We have made a close study of traffic conditions, and our knowledge is used to secure in all cases the very lowest freight rates for the benefit of our customers.

No accurate data can be given as to freight charges on orders for export, except that in a general way a shipment by water to Australia or Japan from San Francisco will cost about one-third less than it does from Fresno to San Francisco, a distance of 206 miles.

Address all correspondence

FANCHER CREEK NURSERIES,

Geo. C. Roeding, President and Manager,

FRESNO, CAL.

TO INTENDING PURCHASERS

TO THE TRADE:

Twenty per cent discount, except on Citrus Trees and Grafted Grape Vines—ten per cent.

... .. it is either necessary to cancel the order or substitute with another kind which is similar. In nearly all cases when we exercise our judgment we do not hesitate to say that we believe our customers will approve of our desire to please them.

3. Our packing and labeling are as perfect as possible, and we charge for the same only to cover the cost of material. Cartage to the railway or express office free of charge.

4. State distinctly how you wish us to ship—by freight or express; also designate the route, otherwise we use our own discretion in forwarding.

5. After delivering to the carriers we cannot hold ourselves responsible for any loss or injury to trees or plants after they have been carefully packed and shipped; but we will do everything in our power, if any loss should occur, for the protection and recovery of our customer's property.

6. Orders to be sent by express, C. O. D., will be filled, provided one-half of the amount is sent with the order.

7. If any mistakes are made in filling orders, we will cheerfully rectify the same, but must respectfully request our customers to notify us at once, or, at the most, within ten days after receipt of the goods.

8. Orders from unknown correspondents must be accompanied by a remittance or satisfactory reference.

9. We uniformly tre our trees in bunches of 10, and grape vines in bunches of 50; and we suggest to our patrons to make their orders for assortments as far as possible in multiples of these numbers.

10. Articles mentioned in the following list will be furnished at prices named as follows: Five at the 10 rate; 50 at the 100 rate; 500 or more at the 1000 rate. Less than five of a variety at the single rate. This does not mean, as an illustration, that 10 pears, 10 apples, 10 plums, 10 nectarines, would be charged at the 100 rate. To secure this rate it will be necessary to order 50 trees of one sort.

11. For the convenience of those who cannot be reached by railroad or express, packages of small trees, if in stock, not exceeding four pounds in weight, can be forwarded by mail, such articles to be charged at single rates, postage additional.

12. Please remember to write your name, postoffice, county and state as distinctly as possible; also give your nearest express office and railway station, or if on a stage route, send us special directions, giving us the name of the transportation company delivering the goods. Orders for export to old Mexico, the Hawaiian Islands, Cuba and South American points should give, in addition to the above, the steamship routes by which their orders are to be shipped.

All remittances should be by postoffice money order, registered letter, express order, bank draft, or check. All orders from foreign countries to be accompanied by draft, or international money order.
